ICAR 2011
International Conference on Arabidopsis Research

22nd International Conference on Arabidopsis Research
University of Wisconsin, Madison, USA
June 22-25, 2011

NAASC
The North American Arabidopsis Steering Committee
Throughout this PROGRAM, the numbers next to abstracts refer to abstract numbers, not the page number in the ABSTRACT part of this book.

SESSION OVERVIEW

WEDNESDAY, JUNE 22
6:00 - 7:30 pm  Keynote Address  Union Theater
7:30 - 10:00 pm  Opening Reception  Tripp Commons

THURSDAY, JUNE 23
8:30 - 8:40 am  Presentation of the 2011 Genetics Society of America George Beadle Award to Joe Ecker, by Elliot Meyerowitz  Union Theater
8:40 - 10:10 am  Plenary Session 1: Epigenetics/Small RNAs  Union Theater
10:30 am - 12:00 pm  Plenary Session 2: Biotic Interactions/Biotic Stress  Union Theater
1:30 - 3:30 pm  Concurrent Session 1: Cell Biology  Union Theater
1:30 - 3:30 pm  Concurrent Session 2: Computational Biology  3650 Humanities
4:00 - 6:00 pm  Concurrent Session 3: Biochemistry/Metabolism  Union Theater
4:00 - 6:00 pm  Concurrent Session 4: New Technologies  3650 Humanities
7:30 - 9:00 pm  Workshops I a & b (Concurrent)  See detailed program
9:00 - 11:00 pm  Poster Session I (Odd Numbered Posters)  See detailed program
9:00 - 11:00 pm  Exhibitors  Great Hall and Main Lounge

FRIDAY, JUNE 24
8:30 - 10:00 am  Plenary Session 3: Stem Cells  Union Theater
10:30 - 12:00 pm  Plenary Session 4: Hormone Signaling  Union Theater
1:30 - 3:30 pm  Concurrent Session 5: Cell Walls and the Cuticle  3650 Humanities
1:30 - 3:30 pm  Concurrent Session 6: Light/Circadian Regulation  Union Theater
4:00 - 6:00 pm  Concurrent Session 7: Translational Plant Biology  3650 Humanities
4:00 - 6:00 pm  Concurrent Session 8: Development I: Organ and Cellular Polarity  Union Theater
7:30 - 9:00 pm  Workshops II a & b (Concurrent)  See detailed program
9:00 - 11:00 pm  Poster Session II (Even Numbered Posters)  See detailed program

SATURDAY, JUNE 25
6:45 - 7:45 am  5K Weed Stampede Fun Run  Union Theater Lobby
8:30 - 10:00 am  Plenary Session 5: Natural Variation/Quantitative Genetics/Evolution  Union Theater
10:30 am - 12:00 pm  Plenary Session 6: Systems Biology  Union Theater
12:00 - 2:00 pm  Poster Session III (Free for All)  See detailed program
12:00 - 2:00 pm  Exhibitors  Great Hall and Main Lounge
2:00 - 3:30 pm  Workshops III a & b (Concurrent)  See detailed program
4:00 - 6:00 pm  Concurrent Session 9: Abiotic Stress Responses  3650 Humanities
4:00 - 6:00 pm  Concurrent Session 10: Development II: Cell Specification  Union Theater
7:00 - 10:00 pm  Conference Banquet  The Sett@ Union South

Note: Members of the North American Arabidopsis Steering Committee (NAASC) are serving as the program committee for the 2011 meeting.

NAASC Conference Co-Chairs
Mark Estelle, University of California, San Diego
Jane Glazebrook, University of Minnesota

Lead Conference Organizer/NAASC Coordinator
Joanna Friesner

NAASC Conference Organizing Committee Members
Scott Poethig, University of Pennsylvania
George Haughn, University of British Columbia
Xinnian Dong, Duke University
Blake Meyers, University of Delaware
Dominique Bergmann, Stanford University
Wolf Frommer, Carnegie Institution for Science
PROGRAM

Poster schedule

All posters will remain up for the entire meeting and can be set up Thursday starting at 7:00 am. There will be three poster sessions, one Thursday evening, one Friday evening, and one Saturday during lunch. To determine when you should stand next to your poster, find your abstract in this book and note the new abstract number. The new number is your poster number, NOT the number it was assigned when you originally submitted. Posters are sequenced by topic and presenter. See the poster list below to determine which group contains your topic.

All posters with ODD numbers will be presented on Thursday evening.
All posters with EVEN numbers will be presented on Friday evening.

Saturday’s midday poster session will be a “free-for-all” – plenty of time to look at all posters, or stand by your own if you need more time for discussion.

Wednesday, June 22, 2011

Annex Room

7:00 – 8:30 am  Breakfast
Inn Wisconsin

8:30 – 8:40 am  Award Presentation
Union Theater
2011 GSA George Beadle Award to Joe Ecker by Elliot Meyerowitz

8:40 – 10:10 am  Plenary Session 1: Epigenetics/Small RNAs
Union Theater
Blake Meyers, University of Delaware, Session Chair

8:40 am  Xuemei Chen, University of California, Riverside
Biogenesis and functions of plant microRNAs

9:10 am  Joseph Ecker, The Salk Institute
Epigenomic Variation in Plants (and People)

9:40 am  Rebecca Mosher, University of Arizona
Imprinted expression of Pol IV-dependent siRNAs

Session Sponsored by Genetics Society of America

10:10 – 10:30 am  Coffee Break
Union Theater Lobby

10:30 – 12:00 pm  Plenary Session 2: Biotic Interactions/Biotic Stress
Union Theater
Xinnian Dong, Duke University, Session Chair

10:30 am  Xin Li, University of British Columbia
Stability of Resistance proteins is controlled by SCF-mediated protein radiation

11:00 am  Paul Schulze-Lefert, Max Planck Institute for Plant Breeding Research
From plant-pathogen interactions to plant-microbe communities

11:30 am  Jeff Dangl, University of North Carolina at Chapel Hill
Understanding plant-microbe interactions: Plant immune system function and rhizosphere metagenomics

Session Sponsored by Monsanto

</table>
2:48 pm Pascal Braun, Center for Cancer Systems Biology at Dana Farber Cancer Institute
Insights into Systems Organization, Network Evolution, and Pathogen Attack from a High-Quality Arabidopsis Interactome Network Map

3:02 pm Laura Helft, University of Wisconsin – Madison
Repeat Conservation Mapping of Leucine-Rich Repeat Domains

3:16 pm Joshua Steffen, University of Utah
Accurate Sequencing of 18 Genomes of Arabidopsis thaliana and Its Use in Imputing the Genome Sequences of Over 600 MAGIC Recombinant Inbred Lines

3:30 – 4:00 pm Coffee Break

3:00 – 6:00 pm Concurrent Session 3: Biochemistry/Metabolism

4:00 pm Mary Lou Guerinot, Dartmouth College, Session Chair
Integrating metal uptake and distribution in plants

4:25 pm Yan Lu, Michigan State University
The Role of a Zinc Finger Protein in Photosynthesis and Light Stress Tolerance

4:50 pm Ling Li, Iowa State University
Uncovering Novel Signaling Interactions in Regulation of the Plant Metabolic Networks

5:04 pm Gregg Howe, Michigan State University
Cytochrome P450 CYP94B3 Mediates Catabolism and Inactivation of Jasmonate

5:18 pm Anna Stepanova, North Carolina State University
“Rooting” YUCCA Genes in the Auxin Biosynthetic Pathway

5:32 pm Cyril Zipfel, The Sainsbury Laboratory
Mechanisms of BAK 1-Dependent Signaling

5:46 pm Stéphanie Arrivault, Max-Planck-Institute of Molecular Plant Physiology
Photosynthetic Carbon Assimilation in Arabidopsis thaliana

Session Sponsored by Mendel Biotechnology

4:00 – 6:00 pm Concurrent Session 4: New Technologies

4:00 pm Simon Chan, University of California, Davis, Session Chair
Haploid Arabidopsis thaliana: Power Tools for Plant Genetics

4:25 pm Steven Briggs, University of California San Diego
Proteome Dynamics Indicate That PAMP-Triggered and Effector-Triggered Signaling Converge Early
4:50 pm  Magali Moreau, Boyce Thompson Institute for Plant Research
Identifying protein-small molecule interactions using functional protein microarrays coupled with a photoactivated crosslinked ligand

5:04 pm  Bob Schmitz, Salk Institute for Biological Studies
Base-Resolution Population Epigenomic Variation

5:18 pm  Mitch Sudkamp, Monsanto
Exploring the Arabidopsis genome with single molecule PacBio sequencing

5:32 pm  Jose Alonso, North Carolina State University
High-Throughput Recombineering and Its Applications for Arabidopsis Gene Function Characterization

5:46 pm  Siobhan Braybrook, Institute of Plant Science, University of Bern
The Application of Atomic Force Microscopy as a Micro-Force Sensor: Probing the Mechanics of Living Plant Cell Walls During Development

Session Sponsored by Plant Methods Journal

6:00 – 7:30 pm  Dinner  Inn Wisconsin

7:30 – 9:00 pm  Workshops I (concurrent)
1a: Gramene Database: A Resource For Plant Comparative Genomics and Arabidopsis Research
Organizers: Pankaj Jaiswal and Doreen Ware
(See abstract #91)  Union Theater

1b: Integrative analysis of molecular profiling data
Organizers: Pierre Hilson and Katja Baerenfaller
(See abstracts #92 – 95)  3650 Humanities

9:00 – 11:00 pm  Poster Session 1  See locations below
Please present (stand by) your poster if your abstract in this book is ODD numbered

Capital View/Langdon Room (4th floor, East and West)

3a: RNA-level gene regulation
Organizer: Albrecht von Arnim
(See abstracts #99 – 101)

3b: Hormone cross-talk: gene families and phenotypes
Organizer: Mary Wildermuth

3:30 – 4:00 pm  Coffee Break
Union Theater Lobby

4:00 – 6:00 pm  Concurrent Session 9: Abiotic Stress Responses
3650 Humanities

4:00 pm  Julian Schroeder, University of California, San Diego, Session Chair
Chemical Genetics Reveals Negative Regulation of Abscisic Acid Signaling by a Type III Effector Signaling Pathway

4:25 pm  Kazuo Shinozaki, RIKEN Plant Science Center
Regulatory gene network in stress responses to drought conditions

4:50 pm  Jose Dinneny, Carnegie Institution, Stanford
Moisture locally induces ABA biosynthesis to determine growth direction in Arabidopsis

5:04 pm  Malia Dong, Michigan State University
Clock Components CCA1 and LHY Regulate Expression of the CBF Cold Response Pathway and Freezing Tolerance in Arabidopsis

5:18 pm  Jesse Woodson, The Salk Institute
Heme Synthesis by Plastid Ferrochelatase I Regulates Nuclear Gene Expression
5:32 pm  
Terri Long, University of Illinois  
*POPEYE, BRUTUS and Other Characters: Elucidating Molecular Mechanisms of the Iron Deficiency Response in Plants*

5:46 pm  
Won-Gyu Choi, University of Wisconsin, Madison  
The role of calcium signaling in the molecular response network to anaerobic stress in Arabidopsis

**Session Sponsored by Agrisera**
